

Coins Add Up!

If \$5 can give one child water for life, how many coins will it take to reach \$5?

Penny=1¢

Nickel=5¢

Dime=10¢

Quarter=25¢

If 100¢ = \$1...

Quarter=25¢

How many quarters make a dollar? Remember a quarter is 25¢

$25¢ + 25¢ + 25¢ + 25¢ = 100¢$ or \$1

Dime=10¢

How many dimes make a dollar? Remember a dime is 10¢

Nickel=5¢

How many nickels make a dollar? Remember a dime is 10¢

Penny=1¢

How many pennies make a dollar? Remember a penny is 1¢

If all the coins above add up to \$4, how many more dimes would you need to reach a total of \$5?
