

SCHOOL SERVICE WITH
GLOBAL IMPACT THRU
WHOLIVES.ORG

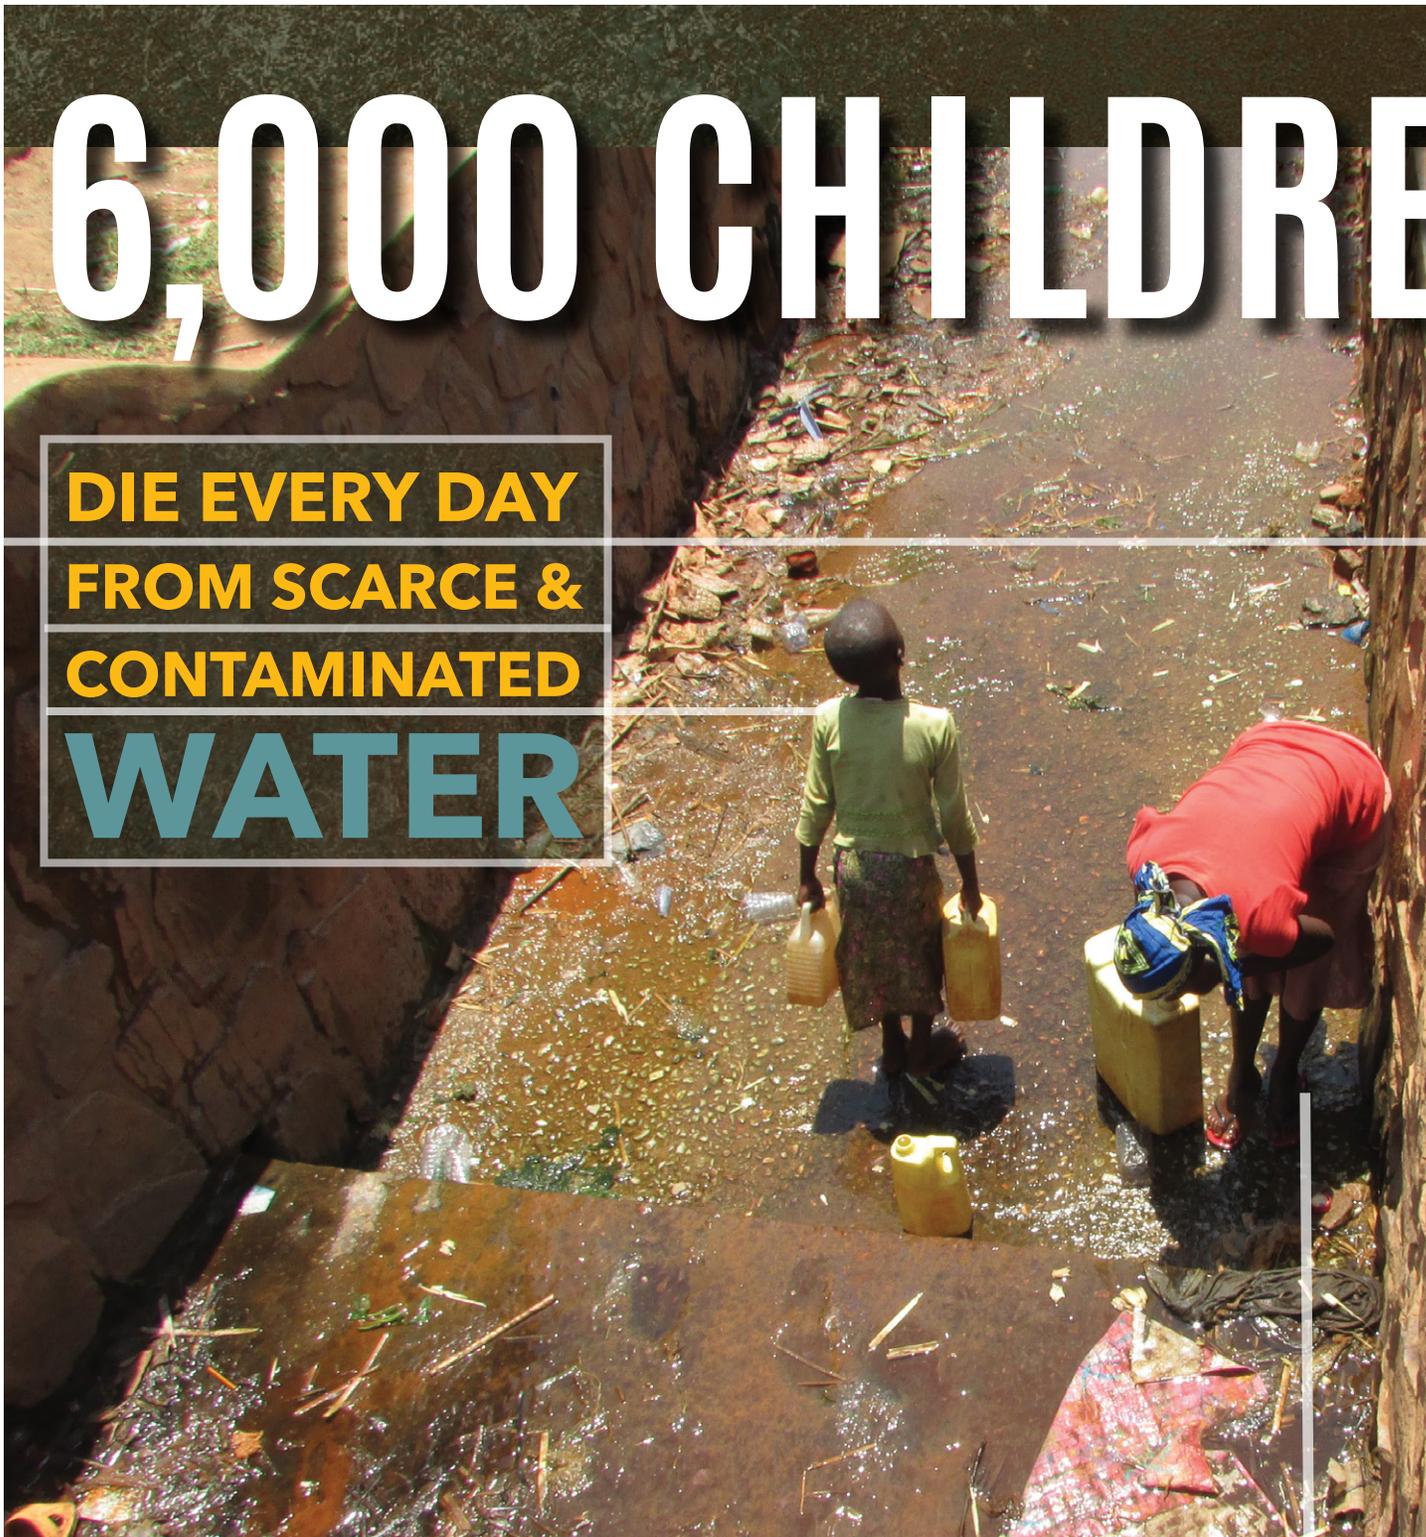

**IT'S THE GREATEST GLOBAL CRISIS
WE'VE EVER FACED...**

**AND YOU HAVE THE POWER
TO DECIDE WHOLIVES**

6,000 CHILDREN

**DIE EVERY DAY
FROM SCARCE &
CONTAMINATED
WATER**

1/2 of the world's hospital beds are filled with patients suffering from dirty water diseases

WOMEN AND CHILDREN ARE

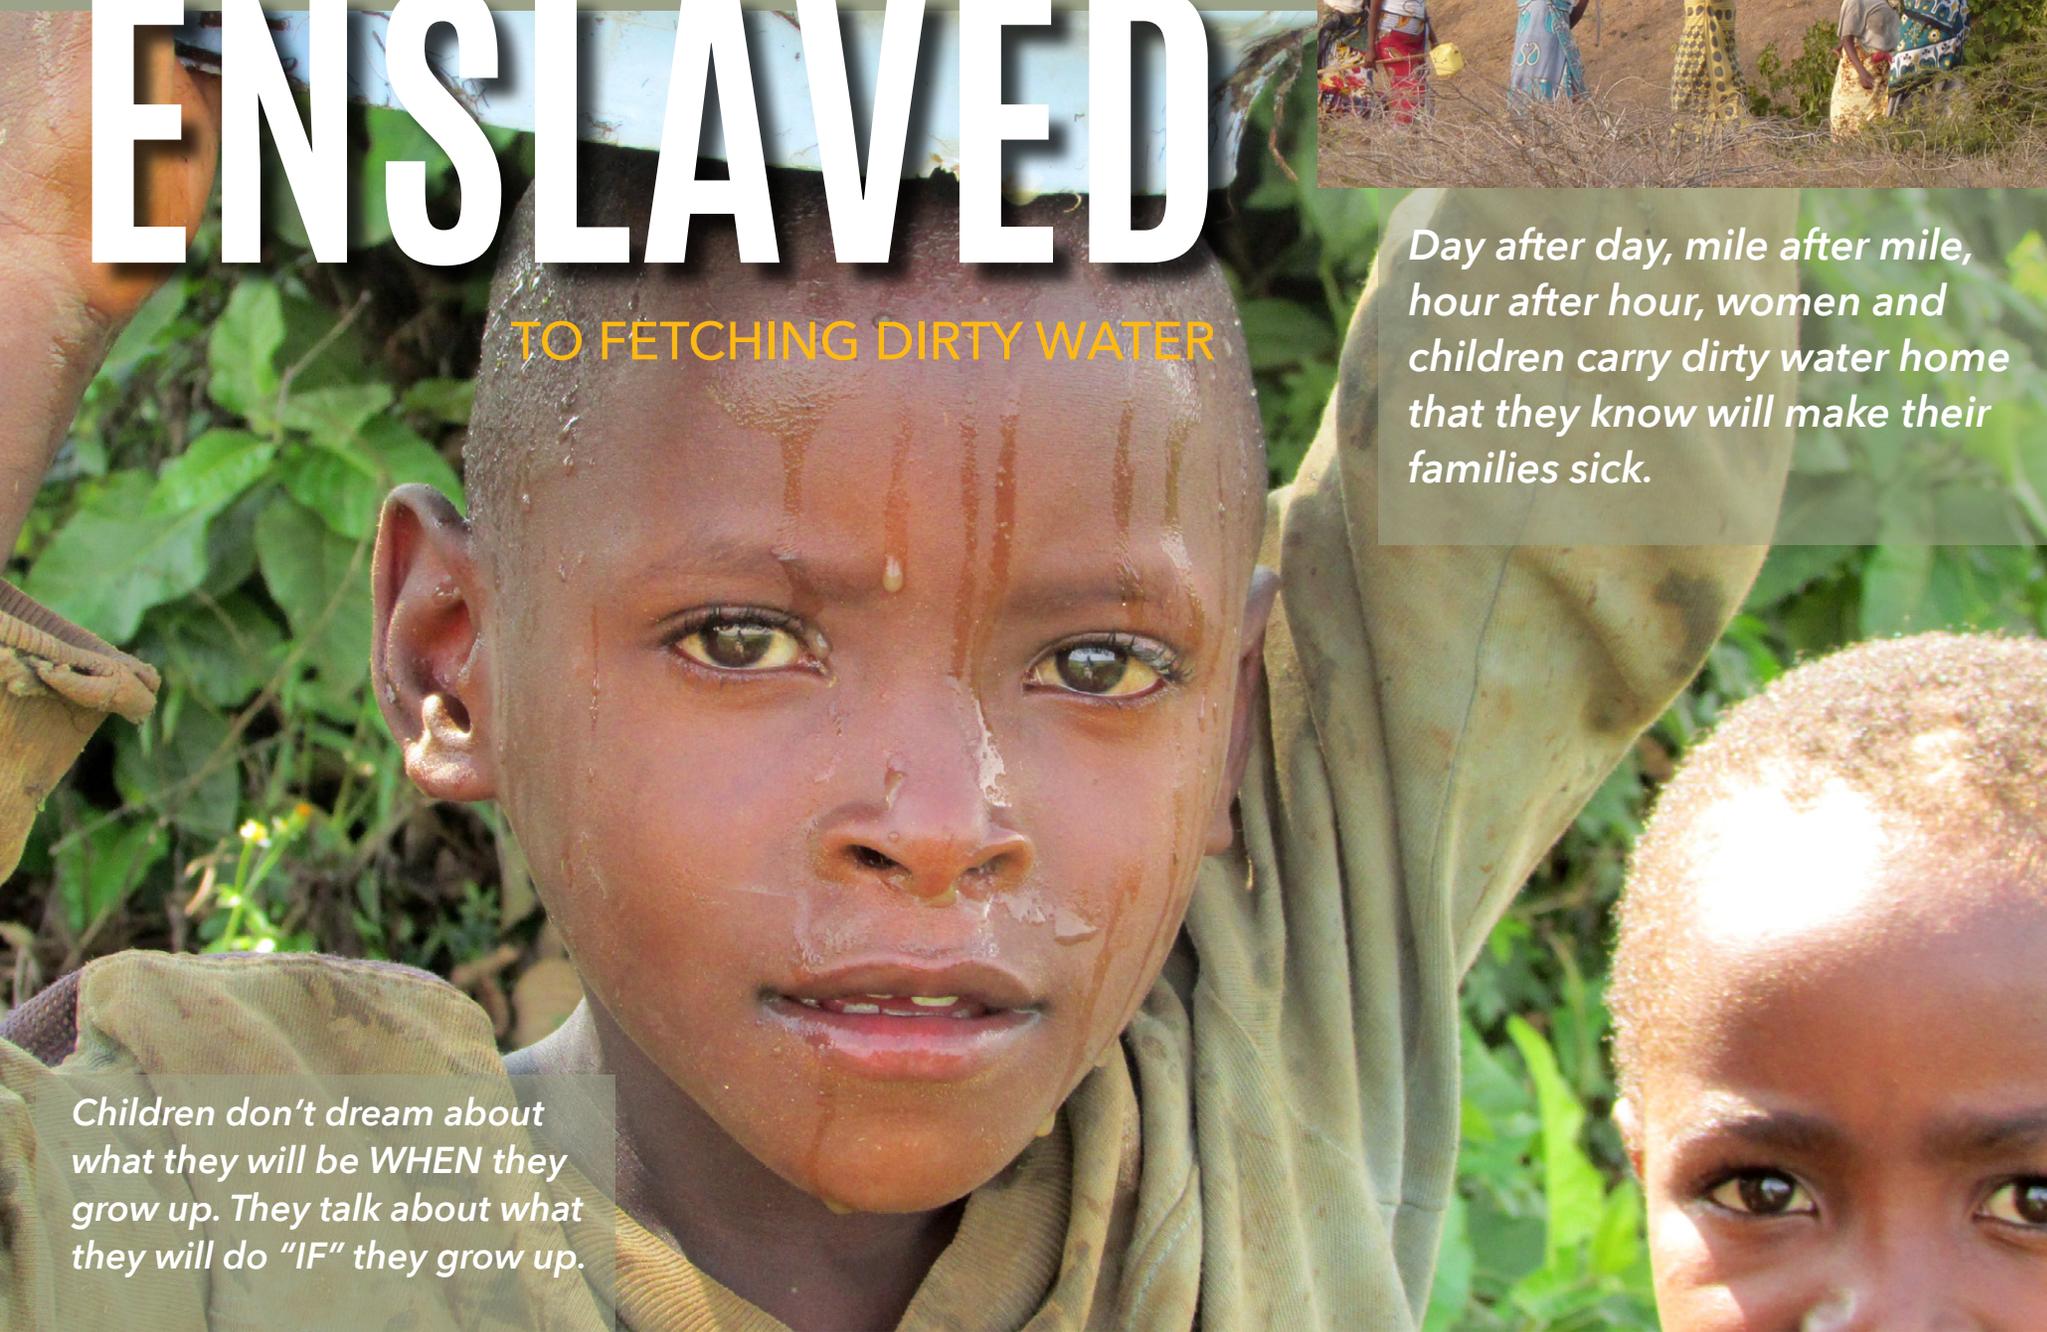

ENSLAVED

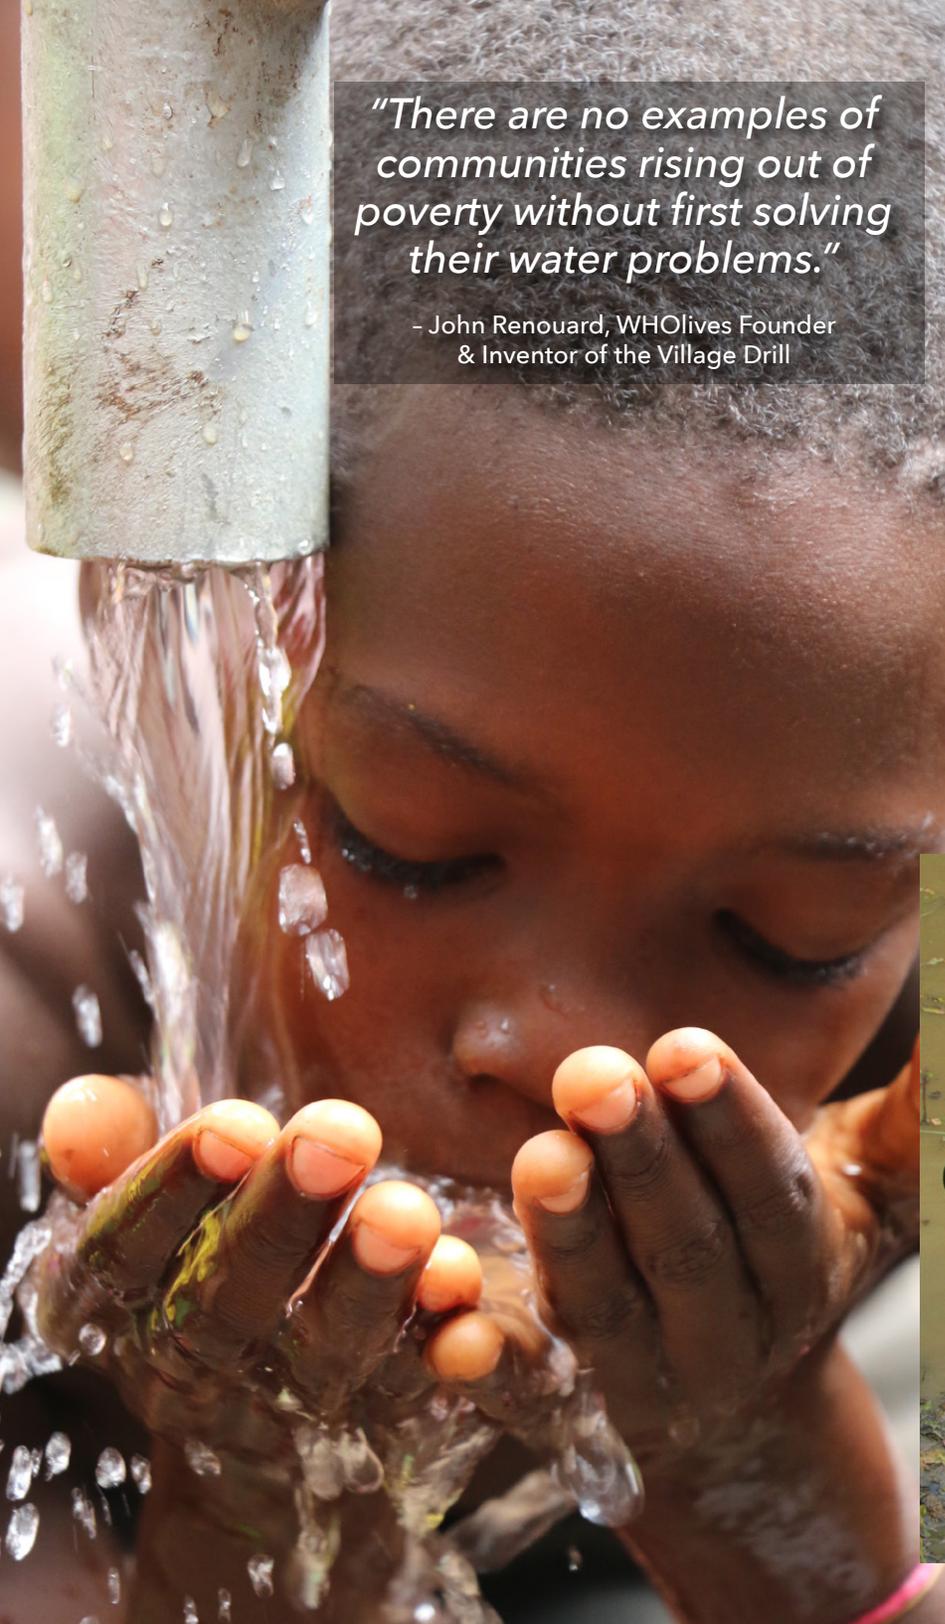

TO FETCHING DIRTY WATER

Day after day, mile after mile, hour after hour, women and children carry dirty water home that they know will make their families sick.

*Children don't dream about what they will be **WHEN** they grow up. They talk about what they will do **"IF"** they grow up.*

"There are no examples of communities rising out of poverty without first solving their water problems."

- John Renouard, WHOlives Founder & Inventor of the Village Drill

JOIN US TO BRING LIFESAVING WATER TO THE WORLD.

Thank you for your interest in the mission of WHOlives. We are the award-winning nonprofit organization that uses innovative technology to eliminate scarce and contaminated water, providing sustainable water, health and opportunity to people throughout the developing world.

Water is fundamental to health, economic growth and gender equality. By freeing women and girls of the daily burden of fetching water, we subsequently create massive long-term impact in their families and communities.

On a trip to Africa in 2009 I saw countless women carrying dirty water home to their families every day. Their water containers often weighed up to 40 pounds and were carried on their heads for miles! It seemed incredible that they would use this water, full of deadly bacteria, to drink, cook and clean. Sadly, there is no alternative. Without water no one can survive more than a few days.

After I returned home I had a powerful moment of inspiration when the concept for a low-cost, manual powered, portable drill came to me. In partnership with the Brigham Young University School of Engineering, my vision was realized in the development of an innovative tool called The Village Drill.

The Village Drill can give communities hope for a better future at one-fourth the cost generally allocated to water projects around the world.

But we need your help.

Organizing a school-sponsored service program to help the most vulnerable people in the world gain access to clean, safe water shows how remarkable your generation is. You are connected to the world in a way that no other generation ever dreamed of. Your confidence and

enthusiasm, your determination to solve the water crisis will change our world.

Welcome to the team!

John Renouard

WHOlives Founder and Creator of The Village Drill

GETTING STARTED

We express our sincere and heartfelt gratitude to you, your student body and all other supporters who will help create awareness and raise funds to end the world water crisis, especially teachers, parents, businesses, church congregations, etc.

The following tips, ideas, and guidelines will inspire you and help you reach your fundraising goals. We hope you'll feel proud of your efforts, because no donation is too small. Let's shoot for the stars and beyond, because so many are counting on you... truly, no effort is wasted.

Remember that when you learn about big problems, you have the power to do something about them. Instead of complaining, be the one who does something positive about challenging social issues, like the lack of clean, safe water.

And, don't forget to have fun too. This is one exciting adventure! Imagine it. You will be the source of life-giving water to many people around the world for years and years to come. So, we say again, "Congratulations!" You really do have the power to decide WHOlives!

Remember we're here to help. Reach out to Sonja@WHOlives.org or call 801.645.3377 and we'll help you every step of the way!

Top Social Media Tips

GEARING UP

Establish a Goal

LEVEL 1 - \$30,000*

Purchase and send the Village Drill to a country in need

LEVEL 2 - \$15,000

Start your own drill team and give 7 people jobs. We'll train the new crew and get them started drilling their first well (usually at a girl's school or orphanage)

LEVEL 3 - \$5,000

Help install one well and install a GPS sensor so you can monitor the activity of your well!

We've seen it over and over again. When your school and community are behind you, creating awareness and raising funds for a noble cause still takes work, but it's more than possible, its achievable. Use these resources to help guarantee your success.

* When your school reaches the \$30,000 Village Drill goal, one student from your school will be eligible to join an expedition team on a future visit to work in a village and see an operating drill. This incredible opportunity is open to students, 16 years of age or older who fill out an application and pay a \$500 fee + airfare. WHOlives Expeditions last approximately 10 days. Other conditions apply.

Seal The Deal With Your Commitment

Fill out the **WHOlives Service Application Form** in this packet that includes basic contact information, your goal, the approximate start and stop dates of your fundraising event, celebration party date, and a sign-off from your faculty advisor.

Also, it's important to determine how donations will be tracked and accounted for during the project. You'll want to use our online donation portal. We'll set up a campaign in your school's name so donors can text their donation right on their smart phone! (Try it out! Text to the number **71777** and in the message, type **drink** and then send.) For other types of donations, be prepared to have the details worked out for your collection method and add those to your application.

Power In Numbers: Assemble Your Team

Who's on your "A Team?" You know, the group of committed students and staff members who are going to help you plan, organize, and execute this amazing project. Get everyone together as soon as possible. A 60 to 90-day lead before launch day is ideal, but we've seen school's work their magic in as little as two weeks.

Audio-visual materials for a school assembly can be found at www.WHOlives.org/get-involved/school-global-service. When possible, a WHOlives team member can assist you in the presentation. Get everyone pumped and excited to help in the fight to bring the world clean water. Explain your goal, start and stop dates, why you selected WHOlives, and the calendar of events.

Get All Your Questions Answered

Check out the WHOlives "Get the Facts About Water" and the Q & A section of this packet. You may also want to spend some time on the [WHOlives.org](http://www.WHOlives.org) and VillageDrill.com websites. Remember, if you have questions, email Sonja@WHOlives.org. We'll get back to you within 24 hours.

MOVING FORWARD

Brainstorm your Plan and Solidify the Calendar of Events

Our helpful Ideas for “Powering Up Giving” will get you started. Once you have your plan and calendar organized, make sure that all administrators or faculty representatives required to sign off on the project have given their approvals.

Send Out Emails Seeking Sponsorships

Make sure you collect emails so that a WHOlives Donor Receipt can be sent for tax purposes. Think about finding a sponsor for matching funds collected. Some businesses will want to help with volunteers or in-kind, tangible products like t-shirts, food, and prizes to help you with events, but don't be afraid to ask for cash. Check with the HR department to see if a business has matching funds. Use the Email Template found at www.WHOlives.org/school-fundraiser and, if you decide not to use an online giving application, you'll want to use the WHOlives Donor Receipt to help you track donations.

Look Outside Your School

Family members and other friends are interested in you and your passion for this project, so don't forget to ask for their donations, help and involvement. Look in the media section for easy to download printables that you can use to get the message out there. Then share, share, and share your excitement and passion for the WHOlives mission again and again.

Customize & Print Out Media

You can always create your own posters, flyers, and digital media, so go for it or tap into our downloadable resources found at: www.WHOlives.org/get-involved/school-global-service.

TIP: Walgreens and Costco print beautiful, full-color POSTER BOARDS in about two hours. Depending on the size, each print board starts at around \$15, plus there's almost always a 40–60% coupon on the Walgreen's website. Bonus! <https://photo.walgreens.com/store/welcome>

Ready? Set. Go!

How will you announce this exciting service project to your student body? A major part of your success will be deciding how to get the message out in a big way, maximizing the number of people supporting your team every step of the way. What's it going to be? Pool Party? Assembly? Or a different creative launch?

Create Excitement with Social Posts

Besides a face-to-face ask or email to targeted sponsors, the number one way to drive interest and donations is through your creative and ongoing social posts. Use the Customizable Facebook and Instagram Posts to get you started and have a peek at the Top Social Media Tips found in this tool kit for a quick reminder of best practices.

Keep Pushing

The big push always seems to come at the end, so don't feel discouraged if you aren't completely on track to reaching your goal. Get your team together to celebrate some of your wins and then talk about other ideas to keep everyone engaged in this important work.

Celebrate with an Assembly or Party!

You've worked hard and reached your BHAG (Big Hairy Audacious Goal) and now it's time to enjoy all that you've accomplished. We'll try to have a WHOlives representative remotely join your celebration and thank all those who participated. There's only one thing left to say, **“WELL DONE!”**

GET THE FACTS ABOUT WATER

OVER A BILLION PEOPLE IN THE WORLD DON'T HAVE ACCESS TO CLEAN WATER. THEY ARE SUFFERING AND DYING IN A SITUATION THAT IS PREVENTABLE.

A majority of these people will go to contaminated water sources because they have no other choice. This contaminated water causes infectious and often fatal bacterial diseases that cause fever, severe diarrhea and vomiting. Some of these deadly diseases include Cholera, Typhoid, Guinea Worm & Dysentery.

Guinea Worm: The parasite migrates through the victim's subcutaneous tissues causing severe pain especially when it occurs in the joints. The worm eventually emerges (from the feet in most of the cases), causing an intensely painful blister and an ulcer accompanied by fever, nausea and vomiting.

Infected persons try to relieve the burning sensation by immersing the infected part of their body in local water sources, usually pond water. This induces a contraction of the female worm at the base of the ulcer causing the sudden expulsion of hundreds of thousands of first stage larvae into the water. They move actively in the water, where they can live for a few days. This continues the spread of the disease.

DIRTY WATER TAKES MORE LIVES THAN ANY ONE CANCER IN THE UNITED STATES.

A PERSON CAN SURVIVE ALMOST A MONTH WITHOUT FOOD, BUT ONLY A FEW DAYS WITHOUT WATER.

THE POVERTY IN AFRICA IS CENTERED ON THEIR DAILY STRUGGLE TO FIND WATER.

"(If we can solve our water problem,) kids can go to school, women can get jobs, businesses are started, health is improved, and the cycle of poverty can end." - Matt Damon, Clean Water Advocate

6,000 CHILDREN DIE EVERY DAY FROM SCARCE AND CONTAMINATED WATER.

Children are the most susceptible to the infectious diseases that are found in dirty water.

For example, 50% of the people in Uganda are under 15 years old, due to early deaths from disease. Less than 2% of the population is over 65. It's a country of children!

WORLDWIDE, WOMEN AND CHILDREN WILL SPEND A TOTAL OF 258 MILLION HOURS COLLECTING DIRTY WATER EVERY DAY.

Many women and children will walk the equivalent of a 5k with a 40 lb container of water on their head every day. They are literally enslaved to this task. What a colossal waste of time! This keeps girls out of school and women from other tasks that would improve their lives.

3.4 MILLION PEOPLE DIE FROM SCARCE OR CONTAMINATED WATER EVERY YEAR.

Imagine laying those men, women and children side by side. Their bodies would span all the way from the west to east coast, and 100 miles into the Atlantic Ocean.

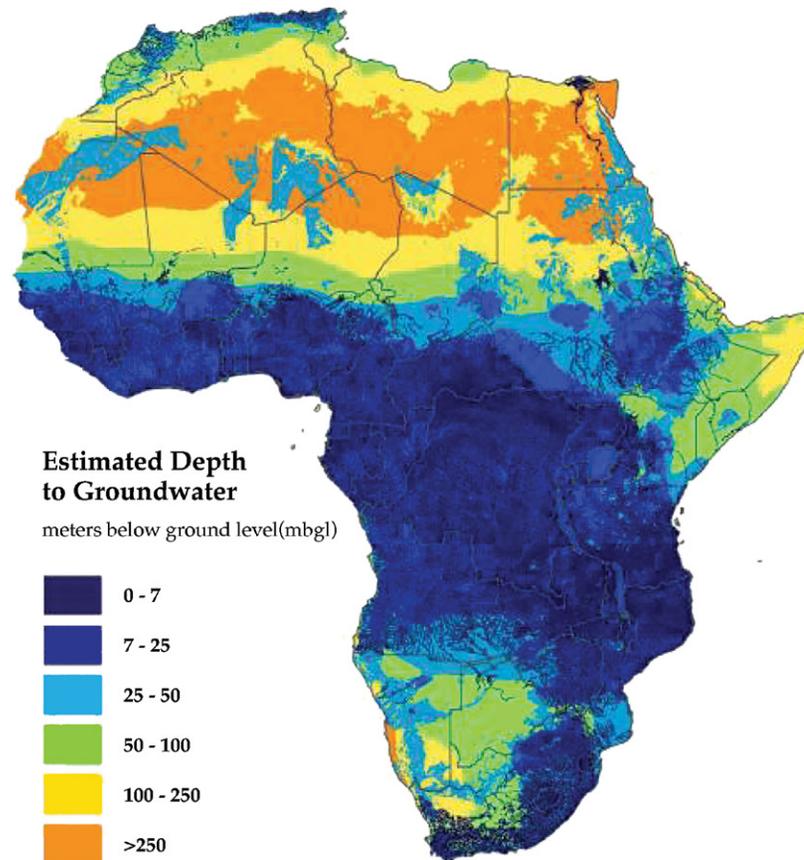

WATERBORNE DISEASES FOUND IN CONTAMINATED WATER KILL ONE OUT OF FOUR FAMILY MEMBERS.

CLEAN WATER TRANSLATES TO A 50% INCREASE IN CROP YIELD:

chickens that lay 1-2 more eggs each week, goats that give more milk, opportunities for more business ventures, less money spent on sickness, funerals, etc.

GROUNDWATER IN AFRICA

Estimated Depth to Groundwater
meters below ground level (mbgl)

- 0 - 7
- 7 - 25
- 25 - 50
- 50 - 100
- 100 - 250
- >250

British Geological Survey ©NERC 2011 All rights reserved

THERE'S MORE WATER ON THE AFRICAN CONTINENT THAN THERE IS IN AMERICA.

The problem is getting to it. Water is only about 30-40 meters (100-130 feet) under the ground. That's the difference between life and death.

POWERING UP GIVING

5

water-themed ideas to add to your service efforts

#3 NO SODA CHALLENGE

Go without soda for 2 weeks and ask your family to join your effort. Donate the money you would have spent on sodas and other drinks at the grocery store, at restaurants and at the drive through. There's a bonus. You'll feel healthier and your body will thank you!

#1 SHOE DRIVE

Since the average woman and child walks several miles a day to get to water, we like the idea of a shoe drive. So many of us have extra shoes that we aren't wearing and don't need.

When you contact www.funds2orgs.com they'll set you up with a turn-key program to collect shoes. They'll come and pick up the gently-used shoes from you and hand you a check for WHOlives. So easy!

#4 WALK FOR CLEAN WATER

5K

Recreate the walk to access water most women and girls make every single day. But this isn't just any walk. Each participant carries two one-gallon milk cartons filled with water as they complete the course around your school track or in a neighborhood. Alert local media about your effort. Get businesses, family and friends to sponsor you on your **Walk for Clean Water**.

#2 ALMOST WATERLESS CAR WASH

Clean water is such a precious commodity, yet we use 100 gallons of water in only 10-minutes. An **Almost Waterless Car Wash** challenges you to wash down a car with wet, soapy towels, a first rinse with wet, damp towels, and a final quick-rinse with a hose and high-powered nozzle.

The goal is to use as little water as possible.

#5 WATER BOTTLE PROJECT

Raise awareness when you rewrap plastic water bottles with your school logo and sell them in the cafeteria and at sporting events. If you really want to make some waves, then get a sponsor to pay for the water bottles. Remind everyone to recycle. See water bottle label designs at: www.WHOlives.org/get-involved/school-global-service

FUN IDEAS TO RAISE FUNDS

MOVIE NIGHT

Gather students and friends and watch the Netflix movie, **The Boy Who Harnessed the Wind** so that your student body has a better understanding of the desperation people feel without water. **See trailer here.** Ask for a \$3-5 donation, and add popcorn and other concessions. It's a no brainer.

ROUND UP TO GIVE

Use this great "round-up your purchase" app to get everyone donating easily and painlessly. Check out: <https://roundupapp.com/for-nonprofits>

USE SMILE.AMAZON.COM

We all love to use Amazon to get the things we want delivered right to our doorstep. Do an email and social media campaign and ask everyone to go to smile.amazon.com and select WHOlives.org as their charity of choice. Then just bookmark the site for all your Amazon purchases.

THE CHALLENGE IS ON

Set up a competition between organizations, clubs, and classes to raise funds for clean water. Try: <http://www.thebudge.com/services.html>

FOOD TRUCK DAY

Arrange for food trucks to be at your school during a big event, when they agree to donate a percentage of their sales for the day.

LIP SYNC SHOWDOWN

Each team pays a registration fee to participate. Sounds like fun, right.

BEARD GROWING CONTEST

Here's one for the guys. Entry fee and prizes are a must!

NEIGHBORHOOD CARNIVAL

Invite local elementary schools and their families to a water-themed carnival. This could include throwing wet sponges, a water balloon toss, a water bag piñata, ring toss with water bottles, etc. Sell popsicles and water bottles with your custom label.

www.WHOlives.org/get-involved/school-global-service

CORPORATE LUNCH DONATION

Connect with local businesses and ask them to support your effort during their lunch hour. Ask the company to donate pizza and the cost of your custom water bottles. Employees donate what they would have spent buying lunch. Use the WHOlives mobile app to gather donations. While employees eat, tell them about your cause. Make it easy and ask parents from school who own businesses to help.

TEXT TO GIVE DAY

This activity can really take off with a dollar-to-dollar matching sponsor. <https://www.qgiv.com/text-fundraising> They charge 3.95% + .30 per transaction.

SCREEN-FREE CHALLENGE

Get friends and family to donate \$1 to \$10 for every hour that you are screen-free.

PROM DRESS DRIVE

Ask your class (and other friends that don't go to your school) to donate gently-worn prom dresses. Sell the dresses!

DANCE FOR WATER

Get creative with a water-themed dance. Tickets costs, concessions, and other fee-based activities can be added to this memorable event.

VIDEO GAME TOURNAMENT

Set up a fee-based tournament. Solicit prizes from local businesses.

GOLD DRIVE

Ask friends and family to donate their old, unused, or unwanted gold jewelry and coins that can be exchanged for cash. We recommend selecting a reputable gold dealer in your area or <https://www.sellyourgold.com>

VIRAL VIDEO CHALLENGE

This is the perfect activity to get class officers, clubs, and other school groups to come up with safe and age-appropriate scripts. Have each group submit their finished video (after a quick screening process), then upload them to your school's social media page. Make certain that you ask viewers and participants to vote for their favorite video via PayPal or Venmo. One dollar equals one vote.

SUGAR-FREE CHALLENGE

You know the drill. Give up all sugar for a week, month, three-months, or more. Get people to agree to pay you \$X if you reach your goal. Sweet!

EVEN MORE FUN IDEAS

IRON CHEF COOKING COMPETITION

Organize your own Iron Chef competition complete with judges and bragging rights. Allez cuisine!

NEON NIGHTTIME WALK-A-THON

Don't hold just any walk-a-thon... make it a neon nighttime walk. Use glow-in-the dark chalk and stars to light the pathway and add plenty of glow sticks, glow bracelets, and other glow products to make this a memorable activity.

CYCLE-A-THON

Who's ready to bike for hours on end? Get classmates to pledge money to those willing to ride and ride... and ride.

SERVICE AUCTION

You have talents, abilities, and a desire to raise money. Get everyone you know to participate in supplying and buying services in a service auction. This is a great initiative for getting dentists, golf instructor, tutors, musicians, artists, cleaning services, pilots, and other involved too.

MACHO MAN COMPETITION

What would a beauty pageant for men look like? Let the boys have fun with this one. Have a talent contest, best dressed competition, arm wrestling tournament, and ask contestants to answer an important question. Sell tickets to the event and crown the most "manly man" on campus.

BATTLE OF THE BANDS

This activity may take a bit more planning, but it brings in a significant amount of money from bands and attendees. Don't forget to sell concessions at the event.

RECYCLING WEEK

Find and donate aluminum cans. Recycle them and collect a check.

CHANGE WARS

Ask students to bring in all spare change for a week as a competition between classes.

COOK-OFF

BBQ, chili, Jello, pie, and more. Oh my!

5K SELFIE RUN

This is a 5k that requires participants to snap and selfie and post it on their social media channels with pre-determined hash tags and select points throughout the run.

PET PARADE

Awww! We love to show off our pets, but it will cost you something to participate in this parade of pooches, kitty-cats, birdies, pet pigs, and prized pets. Make sure that you give out unique awards.

CORN HOLE TOURNAMENT

Who doesn't love a Corn Hole Tournament? Hmmm?

SILENT AUCTION

Another great way to get businesses, civic leaders, and parents involved.

JELLO WRESTLING & POLAR PLUNGE

Crazy. Fun... and definitely an attention-getter.

HOLIDAY GIFT WRAPPING SERVICE

You can offer this service at school, but many shopping centers are open to having a holiday gift wrapping station set up in their mall during prime shopping hours.

HULA HOOP CONTEST

This is a easy-to-pull together pledge per minute activity.

ICE CREAM SOCIAL

Get the ice cream donated and volia... everybody is happy!

EMAIL DONATION CAMPAIGN

We have a sample donation request email in this packet. Flood your community with cash and in-kind requests.

SELL SILICONE BRACELETS

Design and purchase silicone bracelets to sell for \$5 each. Here's one source: <https://24hourwristbands.com>

WHO lives ...frequently asked questions

Q: Can you tell me about WHOlives?

A. WHOlives is a trusted 501c3 organization that has been around for almost 10 years. The founder, John Renouard traveled to Africa and was shocked at what he saw. Women and children were carrying buckets and jerry cans with dirty water back to their homes. He couldn't believe that in the 21st century, access to water was still an issue.

When John learned that there is clean water just below the surface in Africa, he came home and couldn't stop thinking about what he could do to help. He had a dream about a man-powered drill and just a few days later, received a call from the BYU Capstone Program, asking him if he had a project for them to work on. BYU students took on the challenge to create a simple, durable drill that with human power, could drill up to 250' below the surface. That's how the Village Drill was born.

Q: How are you different than other water organizations?

A: Our model encourages a community to join together to help finance their own well so they will take ownership of that well, caring for it and doing maintenance themselves so the well continues to work for many years. Rather than being dependent on an NGO (nonprofit organization that operates independently of any government) or other organization, a community can feel a sense of pride and ownership, knowing that the well and the clean water access they enjoy was brought about by their own efforts.

Q: What's the connection with the Village Drill and WHOlives?

A. WHOlives is a trusted non-profit organization that was founded by John Renouard, who, with the help of BYU Capstone Engineering students, invented the Village Drill. WHOlives uses

the technology of the Village Drill to bring WATER, HEALTH AND OPPORTUNITY to communities in need of a clean water well.

Q: Why don't you make the Village Drill in Africa?

A: At one time, the Village Drill was produced in Africa, but due to quality standards, we stopped production there. The drill is now produced in Utah.

Q: How much does the Village Drill cost?

A: The Village Drill costs \$22,500 and can drill hundreds of wells. The Village Drill is made here in Utah, and we ship by air and by boat so shipping costs vary, depending on where its going.

Q: How can the Village Drill solve the world water crisis?

A: The Village Drill can reach 75% more people for 75% less cost. Because the Village Drill can inexpensively drill hundreds of wells almost everywhere, a community can join together to bring the Village Drill to their community, help pay for their own well and then take ownership of it, which includes repairing the well when it needs maintenance.

Q: What do you mean when you say, "Thirst is deadly?"

A. The human body can't survive more than a few days without water. So, about a billion people have to go to a contaminated water source every day because they have no other choice. They drink water swimming with parasites that will eventually kill 25% of their family. We're using the Village Drill to solve that problem.

Q: If your mission is to have communities finance their own well, why do you need \$5 to give a child water for life?

A: Although we work with communities to pay for their own well, this involves cultural changes that can be slow in coming. We still work with communities in desperate need of clean water, and we continue to help schools, orphanages and medical clinics to put in wells where ownership of the well can be established.

Q: How can \$5 give a child water for life?

A: The World Health Organization statistics show that the average well can serve about 1000 men, women and children. Transporting the Village Drill with a local team, drilling a borehole, creating a well, and installing a well sensor with monitoring for approximately 5 years costs \$5,000.

Q: How can the The Village Drill prevent the genocide of children?

A: Clean water prevents death from many common water-related diseases like Cholera, Typhoid, Guinea Worm & Dysentery. But our mission is to place wells where communities help pay and take ownership of their well, maintaining it so it lasts for many years. When there is no ownership, wells eventually break down and people go back to contaminated water sources. All the children that were raised on clean water haven't built up the resistance to those water-borne diseases. This can wipe out entire groups of young children.

Q: How does the Village Drill prevent slavery?

A: Women and girls are often enslaved to fetching water for many hours a day. Worldwide, women and children will spend a total of 258 million hours collecting dirty water today. What a colossal waste of time! This keeps girls out of school and women from other tasks that would improve their lives.

Also, clean water brings greater health and opportunity to raise more crops, have healthier, more fertile livestock and for families to raise themselves out of poverty. This means that fewer parents resort to selling their children into slavery.

Q: How does the Village Drill create health and opportunity?

A: Clean water means less time and money spent on illness and more opportunity for children to go to school and mothers to participate in more meaningful activities during the day. It also means more abundant crops and more productive livestock, as well as new business opportunities.

Q: Are there other organizations who use The Village Drill?

A: The Village Drill has been adopted by some of the world's leading nonprofit organizations like World Vision, The Red Cross, Rotary International, Samaritan's Purse and more.

YES! We're excited to help WHOlives bring clean, lifesaving water to women, children and families around the world.

WHOlives is a trusted, 501c3 organization that uses the revolutionary technology of The Village Drill to responsibly bring water, health and opportunity to developing countries.

We have partnered with college campuses across the nation, including Oxford, Brigham Young University, Baylor University, Weber State University and Utah State University. We look forward to partnering with your school as well.

The Village Drill has been used by some of the world's leading nonprofit organizations like World Vision, The Red Cross, Rotary International, Samaritan's Purse and more.

WE'RE HERE TO HELP YOU EVERY STEP OF THE WAY! FOR QUESTIONS & NEXT STEPS
